

DERMAL LABORATORIES LIMITED

Formulation Chemist

Competitive salary and attractive benefits

Hitchin, Hertfordshire

Full time

Would you like to work in the formulation department assisting in the development of both topical pharmaceutical (for OTC and ethical markets) and cosmetic products?

The position will include laboratory scale formulation development, the scale up of potential formulations in our pilot facility and involvement with technology transfer of development products into commercial manufacture in accordance with GMP.

The ideal candidate will have:

- a degree / diploma or equivalent in a scientific discipline
- formulation experience, preferably in pharmaceuticals/cosmetics or other skincare products
- an appreciation of working in a GMP environment.

If you are attracted by this opportunity, please email your CV to jobs@dermal.co.uk
